DISCUSSION

Lost /Misplaced Documents

In reviewing the case file, I discovered two sets of documents that were mailed to the Office on 12/18/2001, but were never entered into the file wrapper. Apparently, they were either lost or misplaced somewhere in the USPTO, or were lost in the mail somewhere.

The first set of documents (see attached) consists of a Preliminary Amendment and a single replacement Formal Drawing Sheet. The Certificate of Mailing, signed by Mary Loukota, indicates that the first set was mailed on 12/18/2001. The cover letter indicates that the serial number had not yet been assigned (the serial number was assigned 2 months later on 2/13/2002).

In the Preliminary Amendment, some minor changes to the Specification were made; claims **1, 31, 44** and **45** were cancelled, most of the claims were amended, and new claims **50-65** were added. It is not known if the Office assessed additional fees for the new claims. The documents may have been lost after additional fees were charged, or maybe not.

The second set of documents (see attached) that were never entered into the file wrapper consists of a Second Supplemental IDS and associated references. The Certificate of Mailing, signed by Mary Loukota, indicates that the second set of documents was also mailed on 12/18/2001.

It is possible that since both sets of documents were sent in without listing a Serial Number (it hadn't been assigned yet), that this may have contributed to the problem of the documents being lost or misplaced.
